Maths	Place value Four operations Fractions Converting units Shape				Ratio Algebra Decimals Fractions, decimals and percentages Area, perimeter and volume Statistics Shape				Position and direction Maths base based projects Y6/7 transition.			
Science	Electricity Children develop learning from year 4 to learn about electricity in more depth. They will develop understanding of circuits and their components; how professionals would use universal symbols to communicate these circuits; and how circuits can be manipulated.		Light Children develop learning from year 3 to learn about more detailed components of light. They will explore how light travels; how shadows are formed and enquire about size; the effect of light being split (Refraction).		Animals including humans Children develop learning from year 4 to learn about the circulatory system and how exercise, healthy lifestyle and drugs have an impact on the body.		Evolution and Inheritance Children develop learning from year 3 on rocks and begin to understand how and why animals (including themselves) have changed over the duration of millions of years.		Living Things and their Habitats Children develop learning from year 4 of animal classification and begin to use and understand the universal Linnaean system. They will devise their own classification systems to understand its importance.			

History	WWII How were children affected by WWII? - Timeline of WWII - Evacuation - Rationing (maths skills lesson) - Air Raid Shelter (using sources) - Propaganda - Child's perspective of Blitz writing - Rationing effect on children	-	Mayans Why did the ancient Maya change the way they lived? - Who are the Maya and where did they live? - The modern Maya civilisation - Chichen Itza and Mayan archaeology - Why do historians know so much about the Maya? - Ancient Maya recreation - Mayan downfall
Geography	Natural Disasters – Earthquakes What impact can earthquakes have socially and economically? - How do earthquakes occur? - Mapping countries where earthquakes take place. - Creating a seismometer - Primary and secondary effects of an earthquake - Can I compare and contrast the social and economic effects of two earthquakes? - Case Studies of LEDC and MEDCs suffering from earthquakes.	The Mediterranean Why is the Mediterranean an enviable area to live in? - Identifying the boundaries of Europe and how it is described as a continent. - Understand what life is like in a Mediterranean country. - Research Italy as a country. - Investigate a city within Italy and its geographical position. - Can I consider how geographical position affects the people of Bologna?	
Art	Drawing: Make my voice heard This unit focuses on developing pupils' skills in using different art styles, exploring effects with tools, understanding and applying chiaroscuro, and creating symbolic and expressive drawings. It encourages children to form their own opinions about art, understand the impact of techniques, and convey messages through their artwork.	Painting & mixed media: artist study This unit focuses on understanding narratives and descriptive language in art, exploring meanings behind paintings, and developing personal interpretations and abstract art pieces based on selected artists. Lessons explore creative expression, analysis, and evaluation skills in art.	Drawing: expressing ideas Exploring how artists express ideas and how they use scale to do so.
